KEYNOTE SPEAKER

★ **Tim Van Meter, AIA** ★

Founder, Partner, Leading Architect/Urban Designer

Van Meter Williams Pollack, LLP

Tim is an award-winning designer. He is experienced in a wide range of architecture and urban design projects at various scales, focusing on transit-oriented development, neighborhood design, mixed-use urban infill, and affordable housing. He is a graduate of the University of Colorado School of Environmental Design and has traveled extensively worldwide, studying design, planning, and environmental issues and their effects on communities. He is a community design consultant for numerous communities and organizations, and has extensive experience achieving consensus through the public process.
